Dear Sharon:

Thank you for bringing me up to date on your activities and the progress you have made while diligently guiding "Innerrmotion" toward success.

During your nine years of operation, you have garnered the support of your community, building bridges between social services and cultural endeavors. Innerrmotion has received encouragement and assistance from churches, law enforcement and civic organizations. It is heartening to hear that the United States Navy has engaged your services in Pensacola to provide assistance with their Sexual Assault and Victim Intervention program.

Best wishes for continued success as your program of healing through the medium of dance reaches greater heights.

With kind regards,

Sincerely,
